

ICommand

```
graph BT; A["ChamiUI.Taskbar.Commands.ShowWindowCommand"] --> B["ICommand"]
```

A UML class diagram illustrating inheritance. At the top is a box labeled 'ICommand'. Below it is a larger box labeled 'ChamiUI.Taskbar.Commands.ShowWindowCommand'. A blue arrow points from the bottom of the lower box up to the bottom of the 'ICommand' box, indicating that 'ShowWindowCommand' inherits from 'ICommand'.
